It's no secret that successful businesses rely on loyal customers.

That's why we encourage you to focus your efforts on customer sales and service first, and then recruiting. Learning to sell is an important step. And building a balanced business will give you the kind of strong foundation that will keep your business growing and healthy for years to come.

In fact, loyal customers are our best prospects. They know and believe in our products. They have a strong understanding of who we are and what we stand for.

Besides, people are always looking for products they can trust, even if they aren't necessarily looking for a business opportunity. They are actively looking for products that make a difference in their lives – whether it's for their health, beauty or products for their homes.

So, you shouldn't think that someone who's not interested in the business opportunity wouldn't be interested in our products.

Take the time to help your "prospect" buy a product first. Because they may not be ready to talk about their future yet – they may just want to be your customer.

Get them to trust our products. They'll grow to trust you in return.

And they just may follow you as you build your balanced business.

## Harbhajan Singh & Mohinder Braich

Authorised representatives of  
Braich Multiple Business Pvt. Ltd.

D. O. J. 14/04/98

JALANDHAR

I was born in a small village by the name of Baich, in district Hoshiarpur of Punjab. I belonged to a very simple family of farmers. My parents wanted me to become a doctor, as I was one of the brilliant students in my class since beginning.

In year 1970, I got married to Dr. Mohinder. My wife was born in district Lahore of Pakistan. Her parents were very rich back in Pakistan, but in 1947 they had to migrate to Punjab leaving all their riches behind. When they were back in India they had to live a middle class lifestyle. Her parents used to talk about their good days in Pakistan which inspired her to become a doctor and made her determined to regain the lost wealth.

After doing our MBBS in 1968, we started PCMS job in Punjab as medical officers. At that time our salary was Rs 1000 each. Both of us were big dreamers and wanted a beautiful house, big cars, good education for our children and to travel around the world.

After a short time we realized that job cannot fulfill our dreams, so after three years we resigned from the job and started our own nursing home. As we were hard workers, big dreamers and visionary people, in a few years we became rich and fulfilled many of our dreams.

We have two beautiful children; our daughter Dr. Lavleen Riar is married to Jagbinder Riar and have two wonderful children - son Satjeevan Singh Riar and daughter Gurleen Kaur Riar. Our son Dr. Harleen Braich is married to Dr. Sandeep Braich and they also have two wonderful children - daughter

Mehrab Braich and son Armaan Singh Braich. As we were very busy in our medical practice we had no time for our children, so we had to enroll them in a boarding school from K.G.

We were well settled in India but Mohinder had a strong dream to live in a foreign country. To fulfill that dream we shifted to Canada. In 1995 at the age of 50, when we were living in Toronto, one of our patients showed the Amway business to us. He said, "Dr. Braich I know you have plenty of money and all the luxuries of life but you do not have freedom. You only make money as long as you are seeing patients. You have no time to enjoy with your family and near and dear ones. Along with that you have a life full of tension." His words really touched our hearts as he showed us the reality of life. The moment we asked him that, what he had that could get us freedom. With great enthusiasm he introduced us to the world of Amway where one's efforts are rewarded with sustainable income. One

is free to work as and when he wants and achieves his/her financial goals.

Then we went to an Amway meeting where we saw the business plan and met successful people from all walks of life. There were doctors, engineers, less educated, highly educated, and people from all religions and races. We got excited but we did not have time to build the business even part time. After having lot of discussions on joining we realized that we did our practice for 25 years but could not get freedom of finances and time together but here we saw the possibility. With this we decided to put 2 hours a day in the business and attain financial and personal goals.

In Canada, we started building our business within Indian community. Though there were very few Indians, we still achieved Silver level within 10 months and Emerald within 3 years. This all happened because we took the business seriously and worked hard. When we found out that Amway would be launching in India we were very excited about this opportunity. In 1998 when Amway

came to India we moved back here permanently with a vision that the Amway business would be huge in India.

Before coming to India, we dared to declare that we will be the first Triple Diamonds of India. With this challenge we started our Diamond qualification and very soon became Diamonds. The achievement didn't stop here, and so we went on to

become EDC and then Double Diamonds and now the **first Triple Diamonds of India.**

We achieved success in a short time because we were committed and willing to do whatever it took to fulfill our dreams. We paid 100% price for our success. Our home team was set and our attitude has always been positive. We had great vision for our dreams. We had submission to our up lines and we served our down lines from our heart. Our team is great and with blessings of God we got an amazing group and visionary leaders.

Amway taught us that everybody has unlimited power to succeed but one has to explore that power. Major positive change occurred in us due to the association. Now we have good relationship between husband and wife, and also with our children and our team.

Amway business not only teaches how to achieve financial security but also makes aware about moral values and ethics. Amway's motto is Hope, Family, Freedom, and Rewards. Now we are best partners, best parents and best friends of our team. With Amway Nutrilite supplements we feel energetic and young, even in our sixties.

Now we have beautiful houses, luxury cars, and we travel all over the world. We travel every year around the globe. Now, I have the freedom to spend as much time as I like and my wife has the freedom to spend on beautiful dresses and costly diamond jewelry to her hearts content.

We have time to attend spiritual camps and enjoy holidays of our choice around the world. Our major goal now is to touch as many lives as we can and make them better at the family level, physical & emotional health level, to promote mental health and tension free living.

We want to serve society and make India better and better, so that we can fulfill our purpose in life of helping as many people as we can, and knowing that our people are better off because of the decisions we have taken.

BANGALORE

Rajan and I, both belonged to families with very average backgrounds. My father was in the army and my mother was a lecturer in college. I am the youngest of four siblings. Rajan's father was a head master of a school and his mother was a housewife. He is the youngest of three siblings and comes from a very humble family background.

After completing his graduation in commerce from Trivandrum Kerala, he refused to take up a career with the airforce and started working as a flight steward with one of the airlines. After having travelled all across the world in his profession, he decided to settle in Sydney, Australia as a software programmer with a leading financial institution.

I completed my masters in psychology from Bangalore University and worked as a lecturer for couple of months before migrating to Sydney to join Rajan. That time I decided to change my career from teaching and started working as a computer programmer with a leading bank. We were exposed to the Amway business by Rajan's boss, but were very skeptical to start since we did not know too many people and also were short of time being in the IT industry. However, we decided to join the business to use the world class products that Amway had. Little did we know at that time that our lives were about to change.

Though neither of us come from a business or marketing background, we decided to build this business after attending a few meetings and interacting with highly successful and motivated people at meetings. We achieved the pearl level in Australia with the help of our mentors.

When the opportunity finally came to India in May 1998, an opportunity we were eagerly waiting for, we returned to India. Today, we not only have established assets for our children but also have helped lots of people in India to change their perspective on Family, Freedom, Hope and Reward.

We are today full time parents to our two children, Anjali 14 years & Arjun 11 years and continue to build the business part time. Thanks to the business we have been blessed with friends and have been able to travel around the globe in style and have a positive impact on people's lives.

Doctor (H) & Teacher (W)  
DOJ: 28/11/1999 | IMPHAL

I am a doctor and my wife is a teacher. We did our best for last ten years, but found ourselves in the same hectic and monotonous lifestyle. We never thought of doing things other than just to maintain our present lifestyle.

Only because of God's grace, Amway business came in our life. We took it as a part time job and initially we didn't pay much attention to it as we never knew the potential of the business. But little things that we did in our part time Amway business persistently took us to various achievements that paid us more than our full-time jobs. It was only by then that we realized the true potential of the business and started working hard to build it.

Today, because of our Amway business we are living a life more meaningful than ever before with more family and social responsibilities. Our dreams grow with our lovely kids, Roshan and Deepak. All this happened because of our up-lines to whom we are thankful for leading us all the way. We are also very proud of our highly ambitious team mates.

**You are the master of your own destiny.**

Executive (H) & Teacher (W)  
DOJ: 25/05/2001 | CHANDIGARH

I was working as a teacher and my husband is executive. Since, both of us are ambitious so we were searching for an opportunity which can fulfill our dreams. Right then, a friend of my husband showed us the Amway Business Plan.

Initially, my husband was very negative about the business but the idea of ongoing income was there in the back of our minds. When I went to a meeting, I realized the potential of this business and in no time I joined it. I started working very hard with a hope of achieving success. As my husband was not positive about this business, he started getting information about Amway. He was surprised to know that the Amway business which I had started by taking it on a part time basis, is pioneer and is one of the biggest direct selling companies globally. Though everybody criticized me initially, but my mother-in-law and my husband supported me. I am blessed with two sons, Chitrang and Vaibhav. It was God's grace that I said yes to this wonderful business opportunity and now I am living a healthy, wealthy and happy life along with my family.

Medicine Specialist (W) & Neurologist (H)

DOJ: 20/12/2004 | VIJAYAWADA

I am a Neurologist and my wife is preventive medicine specialist. We are blessed with two fantastic children, Siddhartha and Sindhura. We are running a Super Siddhartha Neuro Hospital and both of us are highly successful professionals.

We liked Amway opportunity because of the values, ethics, philosophy and vision of the corporation and most importantly its high quality products. We believed that this part time business can give us absolute financial freedom and great life style.

Within 20 months of joining, we quickly achieved Silver, Gold, Platinum and Ruby levels of recognition. We are thankful to our wonderful uplines and downline team for their motivation and support. Then in the next 12 months we helped and guided our downline leaders to achieve Silver, Gold & Platinum level. That's perhaps the most unique aspect of this business.

**Ananthapadma & Dhanalakshmi Ravikumar**

Homemaker (W) & Vice President-Finance (H)

DOJ: 16/04/1998 | CHENNAI

I am a master in business administration and my wife is a homemaker. I worked as a finance head in a reputed company.

Like most professionals, we lived a comfortable life but we soon realized that all the perks that came with a high position do not guarantee absolute freedom. In Amway your hard work and goodwill is recognized fairly. It is a risk free business with a small start-up capital but tremendous returns in a reasonably short span of time. Helping others to attain better lives enhances its credibility.

A change of mind-set and outlook towards life stand as the most valuable rewards that we have received from building our Amway business. We have become more positive, optimistic and confident. We also learn to set goals in life and we derive much satisfaction in seeing other distributors growing and achieving success.

 DOJ: 07/05/1998 | CHENNAI

I am a Chemical Engineer and my wife is a Dentist. I always had a very strong desire to be on my own. We had a couple of businesses and were successful too. But there was no security for small business. This kept us looking for something better. When we saw the Amway business opportunity, without much thought we got started as distributors. I was absolutely unaware of the true potential of the business. But being a dreamer my wife liked what she saw in the business plan and decided to work with Amway.

Once we knew the scope and potential of the business, we realized that it was what we were looking for and we jumped in to it. Initially, our goal was just to earn an extra income. But today, our purpose in life is much larger, thanks to the tremendous mentorship and friendship from our uplines. We are grateful to the fantastic team we have with us and feel everyone is a blessing from God. We have two sons Abhimanyu and Anshumaan.

**Sheela Sharma**

Despite having M.A. and B.Ed. degrees, I chose to be a homemaker to give time to our family. My husband is a bank officer. We are blessed with son Gaurav and daughter Surabhi. With the grace of God and blessing of our parents I started this ethical and value based Amway business to earn an extra income.

Initially, it was difficult for me to expand the business. But encouragement and help given by my husband, children and in-laws motivated me not to stop until I achieve the success. My mentor upline helped me and my great team supported me a lot. Now we could feel and enjoy all the beauties of life and are able to understand the real meaning of happiness. Due to the relationships in this business, we have a huge family which share all the joys and sorrows together. Amway has given us recognition, respect and self development. We are thankful to Amway for its quality products which can change the overall personality of people, including their health and wealth. We just want to say-

In 2002, I lost my father who was in a government service and then I realized the importance of security in life. I was supported by my mother who is a homemaker and great motivator. We are grateful to our uplines who made all this possible for us and proud of our team of warriors who are our real strength. Now we are much better than before, enjoying time, freedom and lots of rewards such as foreign trip, recognition and above all peace of mind.

My wife Ajita is a homemaker and we are blessed with two daughters, Anu and Aishwarya. Since peace of mind, family and values were our priorities; we gave all our businesses and continued as a teacher.

It was then, when Amway came to our life. We love the products, the idea and the values. Before coming to Amway, we were successful. But the real success and enjoyment started afterwards.

Even after working for a multinational company for almost 10 years there were lots of unfulfilled dreams in our life. We were looking for some opportunity that could bring financial freedom in our life. That time, a friend of ours shared Amway business opportunity with us and we joined it immediately. We always wanted to have the best in our life and we have a strong dream of becoming one of the richest people in the country. We knew that Amway business opportunity could help us to convert our dreams into reality.

After joining, our uplines promoted us to undergo a product training, where we understood the quality and effectiveness of the products and took a major decision to build it big. We understood that retailing and sponsoring are equally important to reach higher levels of success. We knew that there is no short cut to success, and no substitute for hard work. I am a post graduate with M.Sc.degree and my husband is a CA. In our job we started realizing that our corporate job is not going to give us the “Balanced Life”. When we were introduced to Amway business we realized that this is the opportunity which can fulfill all our dreams. Once we overcome our skepticism by using products and learning the success stories of others, we devoted heart and soul to this business.

The best thing in this business is that we can do it with little money and short time frame. We strongly believe that Amway is a God’s plan for us to provide better lifestyle and financial security. In the beginning no one was in the favor and now those whoever said ‘NO’ are also joining it. Today we enjoy receiving a red carpet welcome on international trips. Amway means: health, wealth and happiness to us.

When we were new in this business our prime objective was to earn time, freedom and secured income as they become mandatory for us. We are harnessing the rewards of this business which aren’t only monetary but also the heart felt feelings.

Being successful in this isn’t an extract of just one factor but is the support of our uplines and consistent efforts of our team and downlines.

I am a homemaker and my husband is a civil engineer. With the blessings of God we have one son, Devesh and two daughters, Garima and Reetima. I was very introvert by nature but after joining this business I saw tremendous change in my way of thinking.

Before joining this business we started many education based businesses but by some or the other reasons those were not very successful and we bear lot of losses. At that time idea of joining the Amway business was given by one of our close family friends.

Initially, we were not serious about it but after attending a meeting we changed our perception. Now we feel that this is the only opportunity which gives freedom of time, financial stability and optimal health. All products of Amway are not only a product but are like an opportunity itself. Thanks to our upline for their support and trust in us.

DOJ: 29/01/2000 | SRI GANGANAGAR

I am a homemaker and my husband is an Orthopedic Surgeon running his own hospital. Amway was introduced to us with a concept of financial freedom, security and time freedom. Earlier we were not very serious about it and we did it as a part time job and reached to the level where we had financial security, time freedom, recognition and privilege of world tours. In our opinion Amway is the only platform through which you can create stable and efficient business in India. We like its philosophy and work ethics where you are working for the success of known and unknown people around you.

We are thankful to our parents and lovely children Harsh and Pavita for their motivation and support. We are also thankful to our uplines and downlines without their support it was not possible to achieve this level.

Businessman (H) & College Job (W)

DOJ: 24/09/2002 | SONEPAT

I was running a hospitality and real estate businesses and my wife is doing a college job after completing her Ph.D. I was not feeling secured in my work and faced many fluctuations in business. That time in 1999 I came to know about Amway, but I was not impressed by its plan in the first instance so I quit the idea of doing it. But it was God's decision, so in the year 2002 my brother-in-law insisted my wife to listen to the plan once again and this time I found it interesting. It has everything like time, financial stability and recognition. This business gave me the opportunity to help others and made my dream come true which is to secure the future of my children.

I want to thank my sponsors, uplines, downlines and specially my mother.

A great Pleasure in life is doing what people say you cannot do. You have to find a reason to build this business.

For me, time and financial security were reasons to join Amway business. By investing unproductive hours wisely, you start to get time back, you build equity as you build an organization, instead of merely trading time for money. That's the difference between working hard...which I had done before...and working smart. For this journey of success I am highly indebted to all torch bearers of freedom. I am also proud of my dynamic team of achievers.

# Plain Speak

**1** Vijay Sharma had started his Amway business some months back and was building the same with great enthusiasm and dedication. He was an expert in demonstrating products. "You should be a good sales person to be successful in this business, because the basic foundation of this business is retailing." Vijay had heard his upline Emerald say this on all meetings....

**2** One day he met his old colleague Aman Singh at one of the meetings ...

Hello Vijay, how are you?  
And how is your business doing?

Hello Aman, I am fine.... by the grace of God my business is doing well and growing steadily!! How are things with you ?

**3**

Well, I am happy for you...but my business is not doing well at all, in fact I am thinking of leaving this business and look for some other option.

**4**

What ?? Aman its so shocking to hear you talk like that... You were so enthusiastic about this business, in fact your optimism really attracted me to this business !! tell me, did you speak to your upline on the problems that you are facing ??

I did, but he told me to continue showing the plan and when more people will join money would start coming in. But this has not been true ...

What ? Have you not realized the importance of retailing ? After all, that is where the money lies. You earn 20% retail profit margin on selling products and you earn volume based additional discount/ commission based on the sales turnover of your group... Do you find it difficult to sell the products ??

Hey, but I never really focused on this aspect.

**5**

But Aman, ours is a business of duplication, your downlines will do what they see their upline doing. If you do not retail, chances are they also would not !!!

In fact, that's the way to go. Firstly, you need to learn about the products yourself and then teach your downlines also.

I think you are right Vijay.... I always thought that I will focus on introducing more people to the business and the group would take care of the retail sale.....

How do I sell the products to customers? I am not very confident about selling...

Amway organizes a lot of free training sessions on selling skills as well as demonstrate products. Attend these, take help from your uplines...

**6**

Aman is really happy and feels the same excitement that he felt when he had joined this wonderful opportunity called 'Amway'. He thanks Vijay for showing him the way and gets ready to steer his business in the right direction. He starts attending the product training sessions and in some time, he is confidently demonstrating products for his customers as well as the customers of his downlines. He is also able to handle queries and suggest appropriate products based on his customers needs.....

In some months time only, Aman reached the Silver producer level in the business and he knew this was just the beginning and he had many milestones waiting for him in his future....

## NEW TDS RULES

# AMWAY LEADERSHIP SEMINAR 2007

## Beijing

The just concluded Business Seminar (ALS) at Beijing was attended by more than 1400 Leaders.

This will always be remembered as an Outstanding, Exceptional, Terrific, and Stupendous business event. We were amongst the first ones to enjoy the Beijing hospitality as the city is getting ready for Olympics next year. Leaders in both the batches appreciated and enjoyed the Attitude Color launch and the Business Sessions where new Diamonds, Founder Diamond, Executive Diamond and Amway India's first ever Triple Diamond were recognized. To top it all was the experience of having Daal, Chawal & roasted bhuttas while sitting at the Great Wall of China.

Last but not the least was the performance of Chinese Martial artists and Bollywood Dance & Song program by a Chinese troupe at the Farewell Dinner, truly dazzling the entire audience. This was definitely not to be missed business trip.

On the International White Cane Day at Hyderabad, AOF donated over 300 white canes. The day was all the more special for Amway as this donation took place at the CMs residence. Area manager – AP, represented Amway, and could brief the CM on the work Amway has carried out on the social front. WCD was also celebrated at Bilaspur, Nagpur, Ahmedabad, Jamnagar, Pune and Thane simultaneously, where around 750 white canes were distributed.

ABOs in and around Gorakhpur, came together for the flood affected in their region and donated flood relief material consisting of over 520 packets - each containing 5 kg of Rice, 5kg Wheat flour, 1 kg Salt and a substantial quantity of old clothes by ABOs. This was handed over to the DM.

ABOs at Mumbai enjoyed a musical night with NODA – a troupe of visually challenged musicians and singers. This special troupe had enthralled ABOs last year as well and AOF is honoured to make this partnership a lasting one.

Another ambulance was donated in the city of Ludhiana, with the beneficiary this time being BRC hospital. This was the second ambulance the ABOs of Ludhiana have donated – many, many thanks to all concerned!

The Comedy Boys continued their shows for AOF, which were held at Madurai and Kumbakonam. Both were well attended, with 455 and 754 ABOs coming in for a dose of humor. At Mahendra Singh Dhoni's hometown, Ranchi, 750 ABOs enjoyed the film 'No Entry' and built up their corpus. At Dehradun, ABOs held a Talent Contest which brought out their creative side. All enthusiastically cheered the participants and friends.

At Bilaspur the WCD celebration was coupled with Swasthya Darpan program & a Blood Donation camp with Red Cross Society of Raipur. 27 ABOs of Bilaspur donated blood in the camp.

AOF organized its first Swasthya Darpan program at Panjim, Goa for an audience of 125 plus. The event saw an Orthopedic surgeon, a Pediatrician, Gynecologist & Chest Specialists to speak on significance of Preventive healthcare & Nutrition.
