Enhancing reputation

A good reputation is the foundation for any strong business. Our business is no exception. And companies that want to grow by double-digits, like we do, are especially tied to their reputation.

If we follow the values that Rich and Jay founded this company on, our reputation and our company will grow. If we all remain focused on freedom, family, reward, hope – and if we put a special emphasis on integrity – we can achieve a level of success we never thought possible.

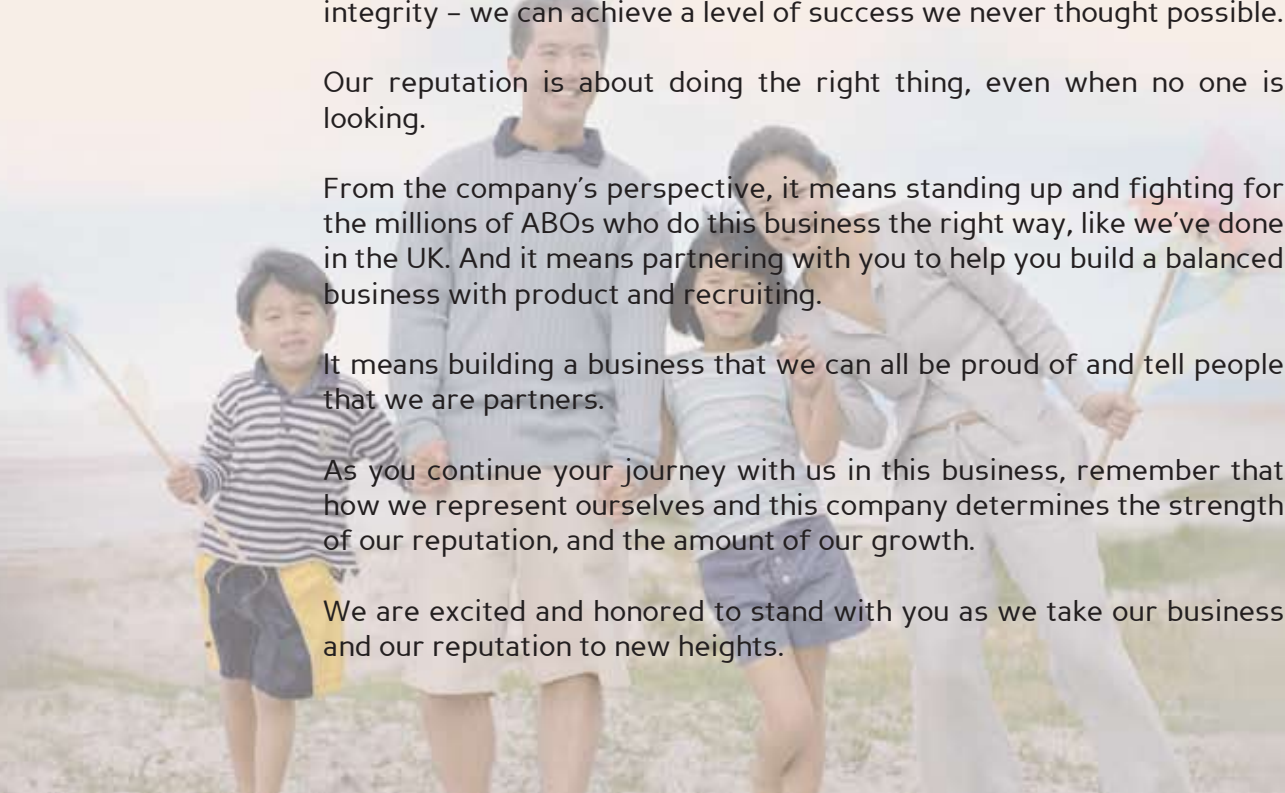

Our reputation is about doing the right thing, even when no one is looking.

From the company's perspective, it means standing up and fighting for the millions of ABOs who do this business the right way, like we've done in the UK. And it means partnering with you to help you build a balanced business with product and recruiting.

It means building a business that we can all be proud of and tell people that we are partners.

As you continue your journey with us in this business, remember that how we represent ourselves and this company determines the strength of our reputation, and the amount of our growth.

We are excited and honored to stand with you as we take our business and our reputation to new heights.

Shuddhatm Prakash & Sandhya Bharill

D.O.J.: 20/04/1999 | JAIPUR

I was born in Vidisha (M.P.) and brought up in Jaipur. My parents are very religious and renowned personalities. They hold very high values of spirituality and preach across the country. I am the only son of my parents and highly influenced by the glory of blissful thoughts preached by my parents.

Earlier, I was engaging myself in a traditional business while I was studying. After a short span of time I got married to a beautiful girl, Sandhya. We have two children, Sarvgya & Sarvdharshi.

With dreams in my eyes to do something extraordinary in my life, I was introduced to a great opportunity of this universe - Amway business opportunity: a par excellence, a road map to success where one can touch the life of many people and uplift them towards success on the path paved by patience, integrity, dedication, honesty, work ethics and a sense of achievement.

When I was in traditional business, my life was just like a slave. I was always filled with unseen fear of insecurity, tension and lots of unethical competition. As there were lot of ups & downs in my business, I gradually came to know that this is never ending process of life, where one has to manipulate a lot to get better results in life. I realized that this unethical job directly accumulates towards the cycle of bad karmas and approach us towards negative end of life.

Though I saw the Amway business plan in 1998, I was initially skeptical about it. After some time, I attended a big seminar and come to know about a great vision of Amway in India. Without any further delay, I started the business with full swing and within a short span of time, I qualified as a Silver level of recognition. After that I never looked back and continuously started achieving higher levels of recognition.

I dedicate my success to my hardships, great support of downlines to meet out my journey and the great mentor ship of my uplines. But I believe that in every success journey there are big blessings of God, who decides your destiny and shows the path to achieve it. The higher pin like EDC, is not an easy task, its not a quick money making business and infact it is a pure and ethical business. We can not compare the Amway opportunity with any other traditional businesses in which one has to work hard without any time for relaxation. It is an ongoing process in which one has to work regularly and that too in a monotonous way, with lot of insecurities, challenges, stress, competition etc. The word in dictionary for traditional business is different

and should mean condemn, contempt and critic; but in Amway we learn to love, help and grow. It's a unique business where one can create a legacy not for family but for society as well. In this platform I learnt what life is, and what the goal of life is; as we are not born for the fulfillment of our own desires but we should try our best to be a better human being and should work towards humanity. Amway business makes real person; spiritually, morally and socially. I and my family enjoy the different aspects of life. As spirituality is in born and always it entices me due to my family background, so I am very well aware about karmas, eternity of soul, salvation, inner enlightenment, carnation and re-carnation of God. So I am very clear about the goal of my life. But the previous job couldn't fulfill my thoughts and desire, but now I can live a life of significance.

In the end, I would like to say that there is no rocket science to build this business, but only simple rules which needs to be followed. The magic of this business is duplication of man power which makes you millionaire or trillionaire. You have to just make a decision, do the basics, follow the rules of conduct, have faith in you and your upline, down line and especially God because you and your faith in God is majority. Build your business with passion.

Amway for me is like a God in disguise who not only helps me but also helps many ordinary people to live extra ordinary life.

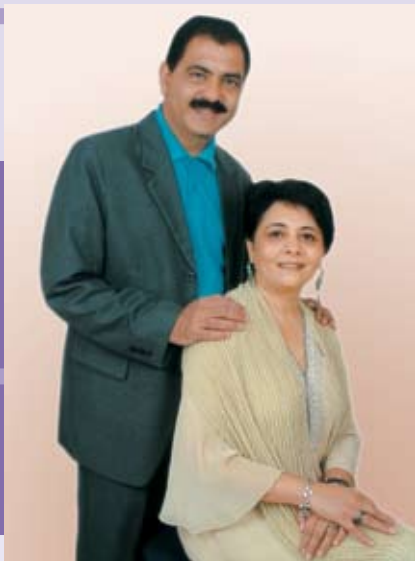

Sushil & Rashmi Pachnanda

Faridabad | 12/03/1998

Authorised representatives of Focussed Vision.

I am a Merchant Navy Captain, and my wife Rashmi is a Computer Professional. Both of us are from a background where our parents believed in good education and drilled us with the teaching that: Education is Everything. There was no grounding or business background. We followed that, but as we observed our careers in detail and saw life for ourselves; we realized that Professional qualifications, a well paying career and Degrees meant little. These things frankly did not equip a person for "living a life", only give a means of "making a living" – but now there is a big, big difference.

We have a son, Varun, and my job kept me away from home for long periods. We wanted to be together as a family for his growth. I tried my hands at two traditional businesses, but lost both time & money. So we migrated to Australia to see what we could do there, and both of us had successful corporate careers, the life that Australia offered, everything.

But what we saw there was more than that. We were introduced to Amway business through one of our relatives who was settled there. Initially we were, a very ordinary couple, with normal fears, and doubts, and hopes, and aspirations of any person. But we wanted to move ahead, properly, and had written down some big dreams, and wanted them to become real. We were willing to work towards it, to "fight for our freedom".

We learnt this business step by step along the way, after joining it, as that is the only way to learn it. Best part was, we earned from the business whilst we learnt to build to higher pin levels. Showing the business plan every single day, we tried to build the business here, and faced the usual obstacles of skeptical people, fear, doubt, and rejections—but never faltered in our unshakeable faith in the inherent goodness of this business

We are grateful to this business, to our LOS and believe that this business offers much more than "just money" to people who build it seriously. We have gained a lot in personal growth, lot of travel, a nice home, great lifestyle, and a control over our life. We are trying to set a good example for our son. We also witnessed a fantastic bunch of true friends, and the great satisfaction of seeing others in our group grow and change, when we too, try out and discover the wonders of following the principles of success and of good business, and enjoy the quality of life living for ourselves.

"The business is much misunderstood, but then, every good idea is much misunderstood, so what's new about that?" It's the trend, and people really need and want all the things that this business offers, yet many go around in circles all their life, trying to find all these very same things somewhere else, in bits and pieces, one thing at a time.

The business always works, but sometimes, people do not want to learn, and then they blame the business. It is NOT a lottery or a get rich quick scheme or a free lunch, it is a proper business, with a great compensation plan and great products from a great company supporting all their efforts.

It has certain steps, which are simple to follow, and anyone can learn them—it's a "paint by numbers" approach that can help anyone succeed. One need to have a dream, be willing to work towards their dream at least part time (but not spare time), and be teachable to follow these steps.

The Amway business looks after a family's short term, medium term, and long term needs—something which is just not possible for any family to plan properly—in any other business.

We work hard to develop this business, because we want this business to become the favourite of career choices for young people, the pride of parents as we "see" the real truth in it, the main income for millions of families, the respect of the corporate and the financial world, and to see the business find its rightful place in India, and the world. Sounds philosophical, but "you can't build any business without a business philosophy".

Paulraj & Sagaryamary Paulraj

Ex-Electrician (H) & Ex-Staff Nurse (W)
D.O.J.: 02/05/1998 | COIMBATORE

Commitment and positive attitude is the key to success for our Diamond recognition level. Thanks to Amway for being with us always. Thanks to God for giving us the support of Amway Founders "Rich and Jay", who have helped us to achieve better goals of life. I was an electrician and my wife was a staff nurse. We used to be under huge debts because of which we had to do other part time businesses such as Tea Shop and Electronic Service Center. But earnings from these things did not clear our debts. Everyday, problems were increasing. Huge debts weighed heavily on our shoulders. As a last resort we had nothing but praying to God to show us a way to come out of those debts and to provide us a good life style.

One day a doctor with whom my wife was working, invited us to his house and shared Amway's ethical business opportunities with us. At that moment we realised that God has shown us the ultimate way to fulfill our goals. I pawned my ring and arranged Rs.4400/- and joined this great business. By God's grace and with the support of Amway and uplines we have achieved this Diamond recognition level for which we have put in lot of hard work. In this process of developing our business we also learned a lot from our mistakes.

In the initial stage before joining this business we used to have one cycle and a scooter, but now because of our achievements we own three cars and a beautiful house. Amway has also provided us with trips to Bangkok, Kuala Lumpur, Bintan, Pattaya, Singapore. We have also sailed in Star Cruise, Mediterranean Cruise and visited Phuket, Lagawi, France, Italy, Rome, Naples etc.

For me success means giving back to society some of the blessings we have received. Our dream is to touch the lives of millions of people and help them achieve their dreams and goals which everyone wishes. We have an ambition to open an old age home and we are trying to make it possible.

We have a daughter Monikha, who is studying in class 8. She believes that her favorite Hero and Heroine are Dad and Mum. We are thankful to my mother and father-in-law for their support and encouragement. They are also very proud of our achievements. Today we have security and hope. Thanks to Amway for rewarding to our dreams and our hard work.

"Real Happiness in Life is finding God's purpose for your Life and doing it."

Parimala & Hari Kumar

Private Sector Job (Both); Supported by her husband Hari Kumar
D.O.J. : 14/09/2000 | TIRUPATI

We both are from simple middle class families and both working in private sector. We are blessed with a son, Ravanth. We were living in separate places because of the nature of our jobs and faced many challenges alone. We are really grateful to God for making us come in contact with Amway opportunity because of which we not only could start staying together but could also spend time with our lovely son.

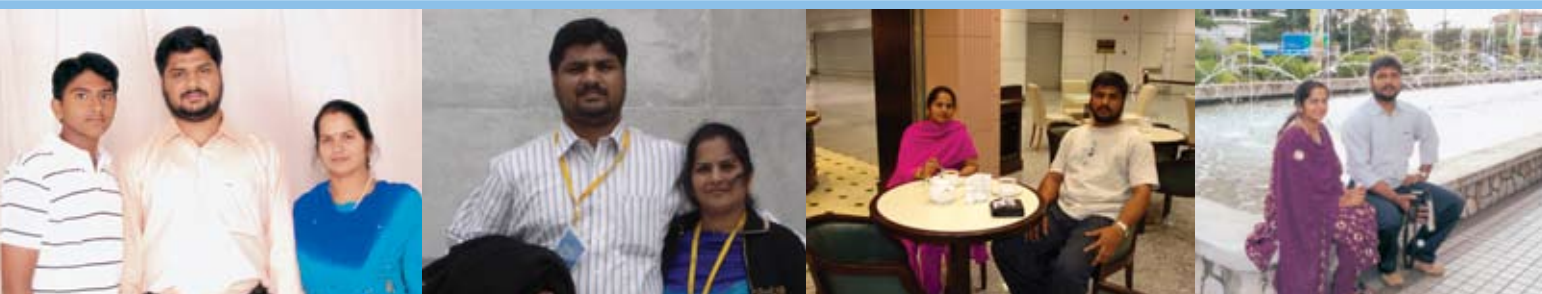

Ever since my childhood I was a dreamer. But our education and respective jobs could not fulfill our dreams and we started compromising in life. Then Amway business came into our life through our nephew. Soon my husband realized that nothing can bring my dreams to reality other than this opportunity and he joined me after I achieved Emerald recognition level. We worked very hard to reach this level of recognition.

When we started in 2000, many of our friends and relatives said various odd things but whenever they pushed me back, I doubled my speed to reach my dreams with the help of my uplines and downlines. Prior to this business, we lead a very ordinary life. We had a rented house, owned a two-wheeler; there was no vacation, nothing. But this wonderful opportunity transformed our lives. Today we own a car, go on international trips and are about to build a beautiful house by next year. We can provide the best of education and lifestyle to our son. And people who use to make fun of ours in our initial days now call us fortunate.

My aim is to take this opportunity to as many dreamers as possible and make the world a better place to live.

My message to everyone who dreams big is:

“ Be persistent. Don’t recognize failure and you will be recognized by success.”

The secret of building huge Amway business is their outstanding products, brilliant training programs and mentorship of our uplines. This is one business, which is based on honesty, and truth and we are building it with full commitment to provide our son, Jai, with a bright future. My husband is M.D. (Medicine) engaged in private practice and I am a housewife, now an active businesswoman.

Our emergence in the business was pious God's plan as we were unaware of its unceasing rewards. As soon as we understood the remarkable rewards, our prime aim was to spend some quality time together as that was not possible with my husband's hectic schedule. Now he works as a Consultant Practitioner.

The immense support of uplines and devoted efforts of downlines paved a way for us to achieve this level. Consistency, persistency, along with meticulous efforts, is our key to build this business.

We strongly believe that this is the only business, which can transform the lives of people and bring positive attitude amongst people.

Plain Speak

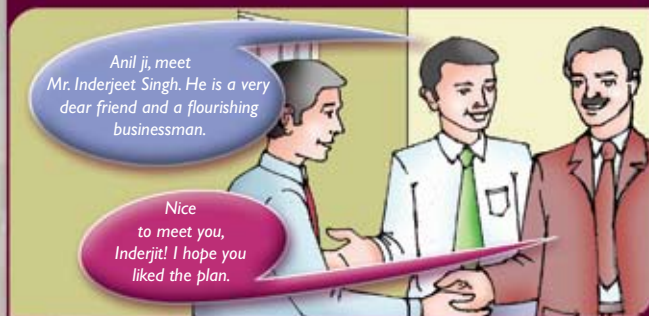

Anil Singh had been an Amway Business Owner for 3 years now and was at the Platinum level. At the beginning of the new business year

He consulted with his upline Leaders and declared to his group: "I am going Emerald in this new year!!!"

Two of his legs were doing good business and he had some promising Leaders emerging in the same. The challenge was getting a new strong third leg, which could help him achieve his dream of Emeraldship. He started working towards developing his third leg with great enthusiasm.

One day after he did a home meeting, he was introduced to Inderjeet by the host for the meeting.

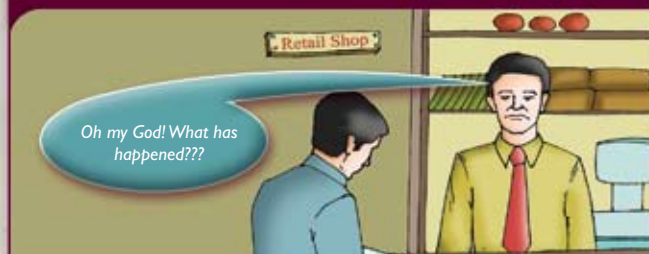

Inderjeet owned a daily needs shop in the posh locality of the city and wanted to do something since he was required to sit in the shop all through the day. He liked this idea of earning while running his traditional shop business.

When Anil got to know that Inderjeet was a shop owner, he came up with the idea of selling products through Inderjeet's retail shop. This will help in faster movement of products and indirectly take him towards his desired goals.

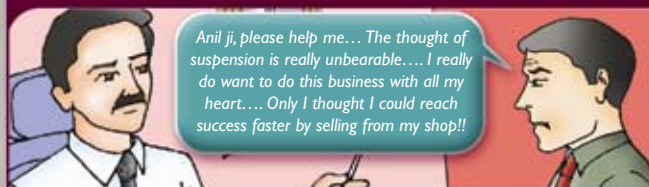

Inderjeet started retailing products through his shop and placing orders with his upline, Anil.

He made a nice showcase for putting the products on display. Since he had a lot of regular customers, it was not difficult for him to sell his Amway products. His business picked up and he began growing in the business.

One day he received a letter from the Amway office, which mentioned that some products purchased from his shop were tracked to his ADA number and that his Distributorship was put on an immediate suspension.

Since Anil had placed the order he was also suspended for the shop sale. Inderjeet was shocked to see the turn of events...he had never thought that Amway could suspend his growing business and turned to Anil for help.

Inderjeet confirmed to Amway that he had received the products placed on his ADA number from his upline Anil.

Anil advised him to confirm to the Company that he had received the products from Anil.

Anil tried to escape by stating that **"I have handed over the products to my downline, what he does with the same is not in my control. Please do not penalize me for a wrong done by my downline."**

As the downline owed responsibility for the retail sale, Company went ahead and terminated his Distributorship. Inderjeet's dreams of building a prosperous business were crushed... **you are hereby terminated from your Amway business for selling through shops which is a zero tolerance policy.**

His dreams of reaching higher levels in the business were shattered and he faced a lot of humiliation in his group for trying to use unethical means to reach greater heights in the business.. apart from loosing respect in the group, he also lost on his growing Amway business...

Amway has time and again informed all ABO's of our intention to put an end to selling of Amway products through retail outlets. For this, we have installed a tracking mechanism which would enable Amway to pick up a product from a shop and identify the ABO who has purchased the product from the Company. An ABO positively identified by the tracking mechanism of having made available Amway products for display and sale from retail shops shall have his/her distributorship summarily terminated.

If you need more information on the above rules refer to Rule 4.3 of the Code of Ethics in the Business Planner, or write to Archana Reuben at Amway India Enterprises, A-35 & 36, Sector - 16, Noida - 201301 OR Email : plain_speak@amway.com

LOSE WEIGHT.BECOME FIT. HAVE MORE ENERGY FOR LIFE.

Raising funds so that a *mota* donation can be made at a later date, seems to be the buzz-word for many of our local implementation Committee's (LICs). We have had film shows screened at Varanasi, two BMD camps organized at Andheri ADC where 246 ABOs participated in the proceedings. Typhoid Vaccination camps were held at Andheri, Thane, Belapur and Pune, with 259 ABOs vaccinated. Sundry fund-raisers were held at Kota, Ranchi, Ahmedabad, Rajkot, Jamshedpur and Jodhpur.

A unique fund raiser involving toddlers and children was held at Ghaziabad and Gurgaon – the AOF Baby Show. This innovative event saw very enthusiastic participation from ABOs and their families, and equal dedication from Amway staffers.

On the occasion of the 3rd Anniversary of the Pondicherry Warehouse, an AOF fund raiser was organized. 'Comedy Boys' of SUN TV fame had the audience in peals of laughter with their wit. On the same day, an audio library comprising of educational tapes and 5 tape recorders were donated to the Government Blind School at Pondicherry.

During a BDC organized at Nagpur, an expert speaker on Child Health & Nutrition was an added attraction. This event is termed as Swasthya Darpan Program. Mr. Devendra Phadnavis, MLA Nagpur was invited as Chief Guest. Other BDCs were held at Nanded and Nasik.

An MoU has been signed between Mahavir International and AOF to conduct a series of 24 eye camps in and around Delhi – these are usually held near slum clusters. This has caught the imagination of the leadership in Delhi and we have received requests that these camps be held in the vicinity of their colonies.

AOF donated cleaning products at Sewa Dan Chembur, Swami Parijanshram Educational & Vocational Center for Handicapped, Shanti Bhagini of Maria Trust, Anand Ashram, Sanjivani Hospital, Blind Boys School.

A PC was donated to a school near Aurangabad during an APSA 80 road show. Mixing business with CSR has gone down well with the public as they see Amway as a Company that cares. This is something other LICs have done in the past and we welcome all such initiatives.
