## BREAKING GROUND BY STAYING GROUNDED

Consumers are our best sales tool. Why? Because they're eager to tell others what they like and don't like about any retail purchase. When they have a terrific experience with a product's quality and performance, that honest, word-of-mouth endorsement is the highest compliment we can receive.

We never want to take that respect and support for granted. Our employees have invested countless hours of time - in fact, sometimes their entire careers - to ensure that our products are produced, packaged and distributed to meet unquestionably high standards.

Amway products have earned the trust of consumers and their families worldwide. Now it's more than just a hunch on our part. Their approval is clearly backed by the numbers.

Our health and beauty products continue to break records in business category sales, creating such demand that we ship more than 30,000 items every day just from Ada, Michigan - before we even begin to count our global shipping locations.

You can take pride in our commitment to continuous improvement. With your help and encouragement, Amway continues to push forward, to stay at the top of our game. Our past has made us who we are, but our future relies on taking calculated risks and trying new ideas. That's why you can count on us to continue launching innovative products, and to refresh and refine our perennial best-sellers.

Your candid assessment of people's reception to our products is essential to complete the full circle of feedback. Please continue to share your experience and knowledge with us. Together, we can keep Amway brands among the most desirable health and beauty products in the world.

## Sajeed Nair & Bindu Sajeed

Corporate Executive (H) & Interior Designer (W)  
DOJ: 14/04/1998 | COCHIN

I would like to introduce myself as a Big Dreamer, who believes that One can achieve whatever one wants to achieve in life by helping enough people to achieve whatever they want to achieve in their life.

I am from a middle class family having an employment background. I did Masters Degree in Analytical Chemistry and then MBA. While I was doing my MBA, I was dreaming of a high class Corporate life. My dream came true as I got my first job with a leading Consumer Electronics company. After that I worked with

many leading companies in industries like Pharmaceuticals, Advertising, Publishing and Petroleum. After working in many companies, I realised that I won't be able to achieve bigger things in life from the

corporate world as employment always has limitation.

During my corporate life I married Bindu. Bindu, after completing a course in Interior Designing, was set to start a consulting business. We both realised that to fulfil our dreams we need to start something of our own.

Through a friend we came to know about this business. However we were exposed to the Business Plan by a stranger in 1998. I took this up on part time basis. I had only one reason for doing this business: that is to get out of my job and to enjoy freedom. Freedom to choose that life we wanted to live. For us freedom doesn't mean doing nothing and sitting idle at home; freedom means able to

do things which we love to do, with whomever we love to do it, wherever and whenever we want to do it. However the credibility of the company and founders principles kept us alive in this business. Though our reason for building the business was to get out of the job and enjoy freedom, what has been keeping us motivated in this business are the world-class quality products and the association we are having with highly positive people driven towards success.

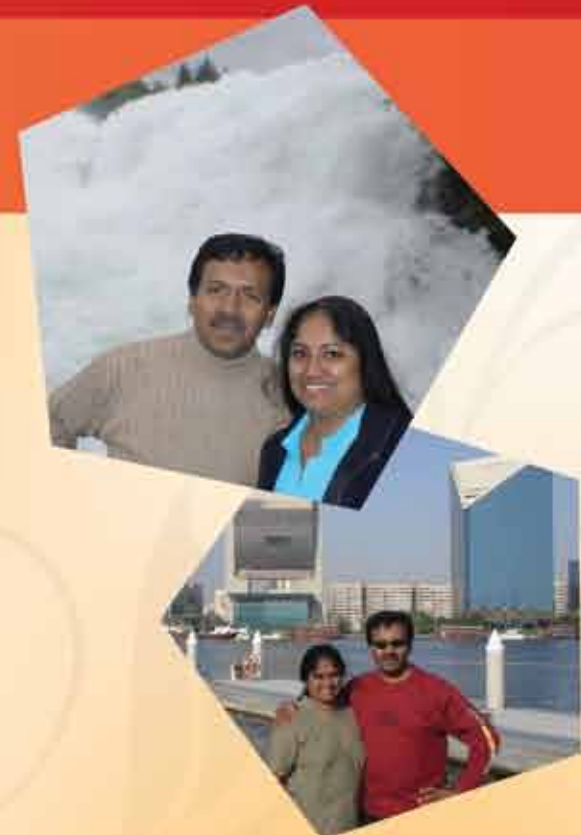

In 2000 we fulfilled our first goal of becoming free from the job. I quit the job when we achieved our Emeraldship. However then onwards we started dreaming big. Within an year we completed our Diamondship. Every achievement was an inspiration for us to move to the next level and we moved on and still moving on. We believe that with God on your side nothing is impossible.

This business is such a wonderful thing where one can aim anything in one's life and achieve more

than what is aimed. Though we could accomplish many materialistic things in our life like a dream house, super premium cars, the most exciting accomplishment is the positive transformation which this business has brought in our life. From a normal person, this business has made me into a businessman, a trainer, an author and a columnist.

We are enjoying the highest quality life; first class flight trips, 5-star plus facilities, trips to the most spectacular places in the world etc. We are able to give the best to our children. Through this

business we are able to provide a very positive and encouraging atmosphere for our son Aditya and Aishwarya.

## Taru & Ankur Gupta

HR Executive (W) & Software Engineer (H)  
DOJ: 15/12/1998 | BANGALORE

We had a dream – the dream of making a lot of money and having the time to enjoy the lifestyle with our family, the dream of making a positive impact on the society, the dream of leaving a legacy, the dream of working together, the dream of being different, the dream of being special, being known, being recognized....and the dream of becoming better each passing day.

The only thing we didn't know was how to get there. With a degree in Electrical Engineering from IIT Delhi, I thought that the life of a Software Engineer will get us there. But from the instant I started my career it was glaringly obvious that people following that path for much longer than me were still not where I aspired to be. Taru, an MBA in Human Resources was working in the hotel industry and never imagined the life we have been living ever since we got married. We pinch ourselves every day to make ourselves believe that we are really living this life.

I saw the business through a colleague while I was on a business trip to California. I saw the business in a room full of people with Masters and Doctoral degrees in Engineering, working for the best companies of the world and had no reason to believe that this was not the best opportunity for our future. We were 24 and 23 when we started this business. We were naïve enough to believe the promise of Freedom, Family, Hope and Reward which are the pillars of the Amway opportunity. And how glad I am that we did...

Building this business is a labour of love for us. When we fall on the bed at the end of a hectic day, having shown the opportunity to multiple people, having shared our world class products with them, having shown them hope that they can fulfill their dreams too, we feel great about ourselves and our future. We feel a "good tired" – tired that you "want" to be every single day.

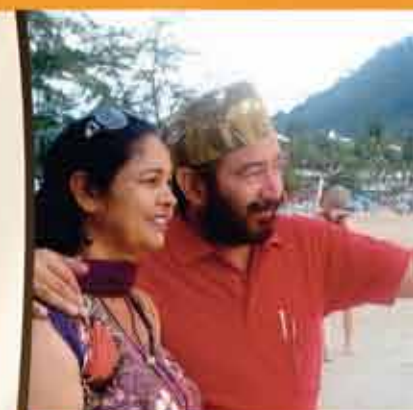

Yes, this business has given material rewards and international trips but that is only half the story. What it has given us is unending goals which make us strive to become better than yesterday and reach higher than before. We have created a team of world class people through this business who push us to be our best and do our best every day. We know that we are not adding to the misery of the world – we are on the other hand making this world a better place to live in, one person at a time, starting with ourselves first. And that is special! But what is more special is this – you can do it too!!

## Jagtar Singh & Dawinder Kaur Pannu

Ex-Army Officer (H) & Ex-Executive (W)  
DOJ: 30/11/2002 | GURDASPUR

I am an Ex-Army Officer and Dawinder was an Executive. I was born in a small village (Khokhar wal) in Gurdaspur District and was brought up in average middle class family. Being in a rural area I believed that the good education and the urban environment are the keys to success and it was not possible for me to have both. This compelled me to join Army as a 'Sepoy Clk'. But even after acquiring good qualification during job, achieving regular promotions and migration from village to Gurdaspur city did not help me and my family to lead a comfortable life. I was always looking for an opportunity and by God's grace during my leave period I met my great upline in a family function. There I came to know that most of my relatives, belongs to various professions were also doing this business. So without giving a second thought, I grabbed Amway opportunity.

After joining the business I went through the details and realized the scope of this business. This gave an awakening alarm to our slumbering dreams and we took decision to build this business passionately. The key of our success is hundred percent submission to upline and the business. We are really thankful to our great mentorship and team for the great support.

Before joining Amway business, it was difficult for me to fulfill the dreams of my family. We never thought of traveling abroad and quitting our jobs. But now we both are free from our respective jobs and enjoying Amway hospitality. Our children are getting school and college education from one of the best institutes. Shopping has become our hobby. We will say that this business has turned our dreams into reality. Finally Amway helped us to break the impasse of our professional lives by giving a focus to our goals.

Now we are working with our team and helping them to achieve their goals. Amway has given us the opportunity to help and uplift other families. This is giving us the real satisfaction and enjoyment. Today I have a great team of enthusiastic leaders flying high in the sky to achieve success.

"We are grateful to God, who bestowed us with best of the best business which enable us to recognize our hidden abilities, potential and helped us to emerge as a winner. Now flood of rewards and recognitions are ahead to enjoy."

Woods are lovely, dark and deep!

But I have promises to keep!

Miles to go before I sleep,

Miles to go before I sleep.

## Zeenath Beevi M & Nahas M

Ex-Government Employee (Both)  
DOJ: 15/07/1998 | Tripunithura

I have been a Banker in PNB by profession and a sportsman by choice. So I love the sportsman spirit. I worked for 18 years in bank and after this long tenure of service I quit the job because of Amway Business. During my bank service I escaped from the edge of a dangerous accident which made me realize that my job is secure, but not me. This being a major turning point in my life, made me diversify and indulge myself in various activities to be secured in life, through fair means and by no malpractices. I did many different kinds of part time work/business, but all went in vain. When I saw the Amway business plan for the first time, that very moment I realised that this is what I was actually looking for, and through this business my dreams would become reality. Success is not an overnight phenomenon. So I started the business with long time commitment, excitement and big dreams. I understood that, a secure good income is much better than only a good income.

My wife Nandini is a Homemaker. In the beginning, she couldn't give much time to the business, but as the business grew she supported me completely. She mastered in all products, specially in Artistry and Nutrilite. We did make some mistakes in the beginning, as everybody does. But with continuous support and guidance from Amway, our vision became clearer and we finally succeeded.

We have two daughters Pronoya and Unnoti. By virtue of being a successful distributor, I was able to send my daughter, Pronoya at 11, on her birthday, on a world tour. Now she is in New Zealand for her higher studies. She is there not to do a good job but to fulfill her dream of studying abroad. She is also an Amway Distributor.

Through this business we have been able to tour abroad every year. I could see satisfaction in my wife's eyes being able to shop abroad without a hitch. I could also fulfill my family's dream of possessing luxurious four wheelers and a refurbished, new looking home with swimming Pool, Home Theater and lots more.

By God's grace, I have been able to fulfill all the dreams of our family. And we are happy that we are being able to touch millions of lives and guide them to fulfill their dreams.

"If you want something you never had, do something you have never done"

We are Post Graduates in Science and I was working with a Central Government Department and Zeenath was working with a State Government Department on a responsible cadre.

I met Zeenath in the college during 1978 and she came to my life through our marriage in 1988. Amway came to our life in 1998 and we started our Diamond qualification during 2008.

We are blessed with twin daughters, Sabna & Sajna, who are now studying for BNYS (Bachelor of Naturopathy & Yogic Science) in Mangalore. Frequent transfers in our job and shifting residence every time badly affected our children's education, which motivated us to do Amway business.

Sabna & Sajna joined Amway business on their 18th Birthday. We started Amway business initially as part time without affecting our job, till qualifying Platinum and two ALS trips. During our second ALS (Kuala Lumpur-2001), we experienced the tremendous transformations happened in the lives of people through 25 years of Amway operations in Malaysia. We came back and took up Amway as our professional carrier.

As we were making a decent income and were enjoying the Amway Leadership Seminars trips at our Founders Platinum Level, we were quite satisfied.

However, while we saw distributors who joined the business after us and had gone to become New Emeralds & beyond, that was a reminder call for us that Platinum and Founders Platinum level are not the end but just the beginning of achievement in Amway business.

Though we had taken a decision in the past but we were not very serious about it and that wasn't backed by strong action.

This time, while we took the decision – we were very serious about it and were willing to do every single thing that was required to make it happen.

Result.....Today we are New Diamonds.

However, we don't want to stop here. We are now focusing on further strengthening our Amway business. Thereby, enhancing our profitability from the core Amway Sales and Marketing Plan along with new GIP.

Dream It.....! Believe It.....!! Do It.....!!!!

A Diamond is a qualified Platinum who has sponsored 6 legs, each of which was at the 21% Performance Bonus level for at least 6 months of the performance year.

## Sneh Lata & Rajesh Kumar Rathore

Civil Engineer (H) & Homemaker (W)  
DOJ: 15/12/1998 | KANPUR

We both were born in one of the remote villages of district Etah in UP, where culture and tradition speaks its own language. Before this business I was a Civil Engineer and my wife is a graduate and a homemaker. We were introduced to Amway business opportunity by one of my friends and because of our faith in him we decided to go for this.

We are blessed with four daughters Jyoti, Ambika, Lakshmi, Sneha and son, Divyansh. I left my job in 2002 when we became Founder's Emerald. Till this level we felt and learnt that short term pain is worth, because it has much more gain and rewards.

Before this business, life was very complicated. There was no balance between family, time and money. I tried to keep it balanced but finally accepted the fact that we are not born for great lifestyle and mentally surrender and accept the cycle of middle class life. We all were happy but did not know that why we are not moving forward. Our family behavior, activity, vocabulary became such that we were blaming and defending each other. Then we felt that this is the fact of life: accept it, don't try to change anything. We did not learn in practical way to become a person having qualities such as honesty, relationship, family, values and character.

I was having two faces in life, internal face and second is external face. This is simply because of my family liabilities were growing more rapidly with respect to my position. While building this business we learnt to simplify our life, focus on the basics and learn to work with dreams and goals and with no excuses. Everything can be learnt in this business. This business always works but needs a little bit change and humbleness, a daily & deliberate action.

We have many beautiful memories in our journey to Diamond level. My whole family worked together to achieve my Diamondship. Unbelievable support of my brother, his wife and my daughters helped me build this business. We all will always remain grateful to my upline and my downlines team.

We are very thankful to Amway and entire management for their support and immense cooperation. Amway business is the best opportunity for everyone. We started this business with no dream at all. We only needed some money but we stayed because of my mentor. Now we are building this business because we have many reasons and all these are closely connected with my downlines dream.

My entire family profile has been changed through this Amway business and through beautiful support mechanism. Here we learnt that money is essential but not everything. It can only help. Here we understood the meaning of financial freedom and are enjoying the same. Now we are travelling around the world. My parents are very happy with our success. Now we have better values and courage to respect and care for them. It's a precious and priceless achievement in my life.

This is an unbelievable journey. Amway business has given us all of this and many more things. My recommendation to all those who wish to get success in this business: Listen to those who have achieved success before you. Your Success is 100% Predictable.

A Diamond is a qualified Platinum who has sponsored 6 legs, each of which was at the 21% Performance Bonus level for at least 6 months of the performance year.

## Mohan Nanasaheb & Meena Deshmukh

Electrical Engineer (H) & Executive (W)  
DOJ: 19/08/1999 | PUNE

We strongly believe in hard work and commitment towards dream. Anyone who has a strong dream and ready to work hard to achieve it, surely with God's help, he can achieve it.

I belong to a farmer's family and Meena is from a typical middle class family. We do not have any business background prior to this wonderful Amway business. Also nobody from my or Meena's family had ever done any business in their life. Even for my education, I had to take a loan to complete my Electrical Engineering.

After my education I joined a sugar factory as an Electrical Engineer. But working there for few months I realized that this job will not fulfill my dreams and I needed to compromise a lot. To have a better lifestyle, I changed my job 2-3 times hoping that if I change my job, I will get more salary and I can fulfill my dreams. But I realized that I was in the same rat race and again joined my earlier sugar factory.

But my ambition to grow in life was strong. I kept working hard at my job to get promotions and increments. Also I was working part time in other areas where I could get more to fulfill my dreams. In the meantime I tried to start a Bulb Manufacturing plant. But as everyone knows that every middle class person has only one limitation to start this own business, and that is money. I also had the same limitation and dropped that idea. However, I tried other small businesses in a hope to earn extra and support my family.

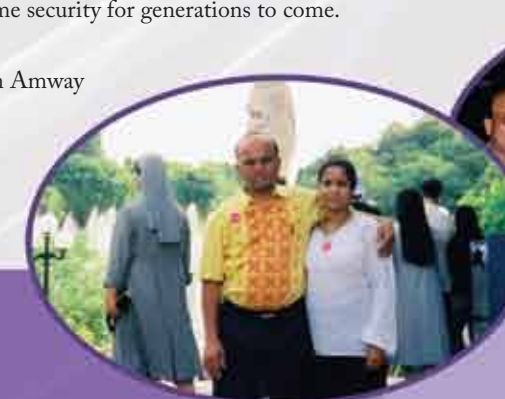

As I was working as an Electrical Engineer, my duty hours were not limited. Sometime I had to stay in the factory for 2-3 days to keep the machines running without any problem. I had not taken even a single leave in my 8 years of career. Only leave that I had taken was on the day I was getting married to Meena. In job there was lot of constant tension and stress in my mind. I was under pressure from management to run the factory without any breakdown of electrical supply.

In the meantime, I got married to Meena. Her father was working with a private company. She has 2 younger sisters and one brother. She was working with a pharma company. She completed her MA, MED after marriage balancing family duties as well as studies.

As she was studying while doing job, she could not find much time for family. This made us look for something in life so that we can get out of this to become successful in business. One needs strong Dream, consistent Hard Work and Patience. Also you need to understand the income security Amway business gives you. I realized this seriously when I met with an accident. At that time I was at Emerald level and earning good income from this business. Because of the accident I could not work for nearly 4 months. Then we realized the importance of security which is what this business gives us. Then we got very serious in this business and decided to go Diamond and achieved it within a year. I also want to tell you all, in this recession period; this is the only business which is growing very fast and will grow all the time.

One message to everyone, irrespective of your background, you can build this business, part time and can create income security for generations to come.

Start it and Don't Quit.  
Believe in God, believe in Amway  
Believe in Upline  
and most importantly  
Believe in Yourself

## Abraham Varghese & Delfy Abraham

Ex-Lorry Driver (H) & Homemaker (W)  
DOJ: 16/03/2000 | ERNAKULAM

We got attracted to this business because of residual income and lifestyle this business offers.

After doing my Master in Economics and MBA, I started my career as a Development Officer in "Life Insurance Corporation of India", the biggest insurance company in India. Ranju, who is a topper in M.Com was busy with her job as a Commerce Lecturer. We were busy in our respective careers but we were "Big Dreamers". We were looking for the extras in life, while stress and busy schedule were taking their toll on us.

After a few years in job, we both realized that we got to have a business of our own. But we neither had the business experience nor a big capital to own a decent business. It was then two of our close friends showed us Amway business opportunity.

("Opportunity is missed by most people because it is dressed in overalls and looks like work." – Thomas Edison.) But we could not afford to miss it. Amway business was a stepping stone for us. We got attracted to it, because of a strong history and proven success of this business in more than 80 countries and territories. We discovered ourselves through this business. This opportunity taught us the "Power of Goals and Dreams". (As Sir John Templeton said, "Those who seldom make mistakes, seldom make discoveries".) Many times our friends would not understand what we were doing but we kept our faith. We had our cup of struggles too but frequent successes kept us going. Every day we love sharing the dreams, selling the best quality products ever made and uplifting & empowering people.

We are so thankful to Rich Devos and Jay Van Andel for introducing Amway to the world and our wonderful uplines for mentoring us. This business has given us incredible rewards. We have a great, enthusiastic team in entire India, to whose success we are committed. No one is ruling us now and we are our own boss. Ranju and I have total control over our life. The spiritual happiness, tranquility and peace of mind we have now are unexplainable. The luxuries of life, having great vacations, spending time with our two beautiful daughters, Harshil and Muskan and our wonderful parents is a blessing.

We visited Malaysia, Thailand, Bintan, Singapore, Spain, Italy, France, China and many other beautiful places with Amway. Through this business we learned the power of team work, adding value to other's lives and the ability to deal with people. (As John Rockefeller, a great business tycoon stated that "he would pay more for the ability to deal with people than any other ability under the sun".)

Get inspired – have a worthwhile dream. Dare to fail and climb the ladder of success. Share this business with every soul because we are helping ordinary people become extraordinary, we are rebuilding the nation. Build this business properly, with ethics and integrity.

"Stop not till you win".

I was born in Kalady (Kerala) in a middle class family and we were farmers. I couldn't complete my higher studies due to unfavourable circumstances. Prior to joining Amway, I was a Lorry Driver. Delfy my wife is also from middle class family and was born in Irnjalakuda. We are blessed with a son, Snehil who studies in 12th standard. My neighbour, 18 years old boy, introduced me to Amway. Initially, I was very skeptical about this business and Delfy was also not much interested in doing it.

After understanding the complete business plan in details, I understood the big picture and potential of this business. I started working hard with commitment. But, Delfy had a negative attitude towards this business. But later, she realised that this is the right opportunity made for us. Then we started working together as a part time business after my regular driving job. Gradually we started building this business with passion. In the initial stage of building our Amway business, we faced criticism from friends and relatives. But we kept ourselves firmly on track with the power of interactions and upline communication. As well as our strong belief to march ahead towards our goal. We met many people who were ready to build a new future with us.

We kept our goal forward, moved forward forgetting all the challenges in front of us. We established our business across India. We understood that the solution to our problems lies in doing Amway business only.

We had entered into a new world, where our tensions were flying off. This pure family oriented business had given us not only financial freedom, but also changed our personality, rather it transformed ourselves. We got a hope to be a successful couple in all aspects.

We started our journey in the year 2000. We qualified Silver & Platinum level in the same year, Emerald in 2007. Now achieved Diamondship in 2009. This achievement is through the persistent and consisted hard work, strong determination and above all our unbreakable belief.

Amway has brought tremendous rewards in terms of personality development, friendship, travel and above all the satisfaction of helping others, achieve their goals and dreams.

We are building this business as our life. My brother and my father are also Amway distributors. Because of Amway business, the family bonds and ties have increased tremendously. Now we are enjoying a tensionfree life... with positive energy to share with our companions. We are really enjoying the good benefits for the pain we had suffered earlier.

We thank Almighty, for giving us the right opportunity for our betterment. Also our sincere gratitude to our parents, uplines and teammates for their unstinted support. Love is the key in this business and we have to make a good attitude to love others unconditionally.

With strong desire, determination, dedication and discipline, anybody can succeed in this business.

Disclaimer:-

Returns will vary from farmer to farmer depending on crop & farming practices being followed.

Note: The above yield increases are with individual insecticides. The yield increase when used with all the above insecticides is not the sum of individual yield increases.

According to Indian researches, one rupee spent on APSA-80 can fetch a return of Rs. 15 to Rs. 213.

**For Example :**

When IPFT used only Malathion on sugarcane crop, the yield was 592 Quintal/Hectare. But with the use of Malathion along with APSA-80, the yield came out to be 644 Quintal/Hectare. It means an increase of 52 Quintal/Hectare. According to Govt. procurement price it is approximately Rs. 5604 whereas for gaining such increase in this crop field, the total spending on APSA-80 comes out to be just Rs. 192 per hectare (296 ml APSA-80 is needed to be sprayed twice on one hectare. The cost of which is nearly Rs. 192). If we calculate, we get a return of Rs. 29 on every rupee spent on APSA-80.

- \* Sugarcane prices based on 2009 minimum support prices

# Validation of Qualifications

Amway Business is a business based on rewarding efforts of hard work i.e. focusing on retailing Amway products, personal usage and getting new people started in this wonderful business opportunity.

As people grow in the business they attain various qualification levels based on their individual as well as group turnover. As you enter the new business year and a new phase in the growth of your business, we would like to share with you some of the “Key indicators” that Amway India uses to create a picture of your business as it grows. These ‘key indicators’ help us ensure that growth in Business is genuine and qualifications are achieved in an ethical manner. A procedure to verify all qualifications is followed right from Silver Producer Level. We have a “Qualification Validation Group” (QVG) which works tirelessly to ensure that qualifications are achieved as per the laid down norms.

Qualifications are reviewed on various parameters that ensure a steady and continuous business growth which would be sustainable for a long time to come and brings profitability to the ABOs. While parameters may vary with each individual qualification, here are some of the things we will be reviewing:

- ▶ Unusually High Personal PV by qualifier or some downlines and/or fluctuation of PVs per ABO
- ▶ Past business history and purchase pattern of the group
- ▶ Number of ordering ABO's in the group
- ▶ Abnormally high purchase of certain products
- ▶ Group Size
- ▶ Financial transactions with Amway India (Accounts Receivable, credit card situations etc.)

Apart from the parameters mentioned above, QVG may use other parameters on a case specific basis.

There may be instances during the fiscal year when we will need clarification from you on some of these points. For example, we may need to see the customer receipts that verify compliance of retailing of products to genuine customers. So be sure to keep good sales records by retaining customer receipts

The purpose behind any request that we make is to support you in your business and help establish good solid business building practices in accordance with the Amway Rules of Conduct and Code of Ethics. Our partnership can assure that future qualification processes are smooth and quick.

So go ahead...focus on your goals.... build your business and reach whatever goals you have set out for yourself keeping the above in mind....

If you need more information on the above write to Archana Reuben at Amway India Enterprises Pvt. Ltd, 9th floor, Tower A & B, Express Trade Towers I, Sector – 16 A, Noida – 201301 OR Email : [plain\\_speak@amway.com](mailto:plain_speak@amway.com)

**Amway™**

Reiterating its commitment to the holistic growth and development of children, Amway Opportunity Foundation has set up a Vocational Centre – the AOF-NAB Centre for Excellence - in information technology in partnership with the West Bengal Branch of National Association for the Blind at Kolkata. The vocational centre is aimed at empowering the visually challenged and low vision students with computer familiarity as well as internet usage. The Centre is recognized by technical education department of Govt of West Bengal, making it the first such institute in West Bengal. As the Centre is equipped with 24-hour internet facility, visually challenged students can surf the net for free.

Minister, Information & Technology, West Bengal, Dr. Debesh Das, inaugurated the Centre in presence of Justice N C Seal, Acting Chairperson, National Human Rights Commission, Mr. Anadi Sahu, Labour Minister, West Bengal and R C Bhattacharya, Vice Chairman, Technical Education, Govt of West Bengal.

Raaga Priya the musical troupe of visually challenged singers, were back in action for AOF, this time, in Vishakapatnam, where the evening was thoroughly enjoyed by 1200-strong audience. Nine dignitaries graced the occasion, including a former mayor, and a blind school principal, congress MP Mr Sabbam Hari – and two MLAs including Mr Kishan Reddy. Interestingly, Mr Sabbam Hari disclosed that his view about Amway had changed after coming to this event and he would request the government to come with Legislation so that the ethical companies like Amway can do their business without any obstacles and set an example to others.

Srinivas a physical handicapped performing artist with no legs, danced to the songs played by Raaga Priya. Also on-stage was six-year-old Swamy, an ABOs son, who is visually challenged. He sang so well that many in the audience were visibly touched. The BIG FM radio jockey - called Veeru mama - sang a song, which electrified the evening. A wonderful show from all AOF volunteers from Vishakapatnam – the Amway staff and ABOs!

Project Sunrise expands almost by the month. This time, it was with the extension of one years education support for 67 children of students of Prayas Social Welfare Society, Faridabad. At Chandigarh, AOF has partnered with the NGO, Theater Age, where the annual education of 21 children will be taken care of. Mayor of Chandigarh, Mrs Kamlesh, was present at the launch of this partnership, where a health camp was held for the children, and a BDC held by ABOs. Project Sunrise also got underway at Surat, Thane and Rajkot.

At Shillong, a health check up camp was organized for the children of A W Thomas Girls' Home, the Project Sunrise partner. Ms. Anita Kharpor, Deputy Secretary, Personnel, Govt of Meghalaya, inaugurated the Health Check Up Camp at the Home Rev in the presence of B B Wankhar, of the Home. Doctors from Nazareth Hospital and Govt Hospital and two nurses conducted check-up for the girls. AOF will bear the monthly healthcare costs for all the 63 children. AOF earlier donated water Purifier and educational aid to the Home. AOF also takes care of annual educational cost for children of the Home.
