MAKING HISTORY

It is always inspiring to witness Amway IBOs achieve great success and this month we recognise the extraordinary achievements of Mitch and Deidre Sala who have become the first couple in Australia and New Zealand to attain the Founders Crown Ambassador pin. We hope that the Salas' story will also inspire you to take your business to new heights. Read about how they made this historic pin level from page 4.

If you have dreams of becoming as successful as the Salas, make sure that you remember to renew. This year one lucky winner who renews before 31 July, will win \$30,000 cash! You too, like the Salas, have the opportunity to build a business as large as they have by renewing and focusing on your goals. You can achieve the same – but you can't do it if you don't renew.

As always, we have included feature stories that give you ideas for promoting Amway products and facts to back you up. Learn how you can have vital energy with Nutriway supplements. We also show you what Time Defiance products you and your customers can use to protect your skin during the winter months.

This is an exciting time to be part of the Amway opportunity. We hope that the Salas and the other recognitions in this issue inspire you to continue building a great business.

Founders Crown Ambassadors Mitch and Deidre Sala

MITCH AND DEIDRE SALA HAVE BECOME THE FIRST COUPLE IN AUSTRALIA TO ACHIEVE THE HIGHEST PIN LEVEL IN THE BUSINESS. THEY'VE ACHIEVED THIS BY STAYING FOCUSED ON THEIR DREAMS.

Mitch and Deidre Sala were frustrated. They had hit a wall – a wall that seemed even more endless than the Great Wall in China. They had been shackled to the three per cent pin for 16 months. Despite all of their hard work up to that point, they just couldn't move. Even a friend admits that at the time the couple didn't seem like Crown (or even Diamond) material, but they were always determined to improve things and search for answers. This was one of those times.

With pen and paper in hand, Mitch and Deidre started scribbling down what would become famously known within the Salas' circles as their list of "100 Dreams". It included things as small as getting a wall unit for their lounge room and the seemingly impossible task of becoming Australia's first Crown Ambassadors. They also wanted to be able to travel internationally in First Class, take their children to a different country every year, and say "thank you" to their own parents by taking them overseas.

"The dreams we wrote down were bordering on insane," says Mitch. "They were crazy dreams. We hadn't succeeded in anything before. We were just normal people with an abnormal desire to get ahead."

Years later most of those 100 dreams have come true. The most absurd dream (Dream Number 36) which Mitch smilingly confesses they naively wrote down, became a reality in 1998 when they achieved the Crown Ambassador Pin. Then, as the Founders Crown Ambassador Pin was introduced to Australia several years ago, the Salas decided that they should just go for that as well. "It's amazing to think you can write something down and it's actually going to come true as a result of this business," Mitch says. "What we've achieved couldn't have happened with any other business."

Now that the Queensland couple are the first to achieve the highest pin level in Australia, there is a real sense that what they have gained most

“IT’S AMAZING TO THINK YOU CAN WRITE SOMETHING DOWN AND IT’S ACTUALLY GOING TO COME TRUE AS A RESULT OF THIS BUSINESS.”

from the experience has little to do with the material symbols of their success. They live in a gorgeous mansion with the beach as their backyard. They have four cars in the garage and own a country property complete with horses, but that's not what they gloat about. What they are really proud of is the freedom that the business has given them to nurture their family.

Mitch and Deidre have ensured that their children Rick (19), Tamsen (18), and Blake (15) have had an ideal upbringing with both parents available whenever they were needed. It was one of the reasons the family moved from Sydney to the Gold Coast: their new school would only be a few minutes away from home and the pace of the city was much more relaxed. And, unlike many parents who work in full-time jobs and don't get to see their kids until late at night, Mitch and Deidre coordinated their work schedule with their kids' school hours so that they could be there with them as soon as they got home.

Every year the Salas go overseas on a six week family trip during the summer holidays. There is only one condition everyone needs to abide by: no phones, iPods, or email. Nothing electronic. This holiday period is purely for the Salas to spend time together. The first few years when the rule was introduced, the kids would protest and ask for some concessions. Now they really enjoy it and are often the ones who enforce the rules.

"Obviously to be totally out of touch with your business, and out of touch with everybody just to travel, is pretty rare. That's the biggest benefit [of this business]," Mitch says. "We could see that this time we spend together is leading us to where we wanted to be in relation to the kids. We were trying to achieve a close family and open communication which leads to our kids being able to do that with their own families."

"We definitely worked hard and worked consistently the whole time we have been in the business. But, it's amazing how you can prioritise the family and work the business around them."

Their sense of family commitment was something that was first emphasised to them by their overseas upline, American Founders Crown Ambassador Nancy Dornan. Nancy told them to "See life through your children's eyes". From that moment, Mitch says that they literally changed their whole direction. It wasn't the only piece of advice that Nancy and her husband Jim would give the couple. Over the years, Mitch and Deidre have stayed very loyal to the Dornans and believe that they are a huge factor in their success.

"We've ended up with a lot of loyal leaders because we've been loyal and followed Jim and Nancy," says Mitch. "That's an important principle that we accidentally got right. Just by being loyal to someone, we ended up being an example to others."

"Deidre and I have never set out to be number one, we've just focused on our dreams and goals, improving ourselves and never quitting."

SUCCESS TIPS

Make your own list of 100 dreams come true with some advice from Mitch and Deidre Sala.

DON'T PREJUDGE

"I think the biggest advice is not to prejudge your results. Sometimes what is perceived as a bad experience will turn into great business. Sometimes when you think things are not going well, they actually are. It's just like health. You can't go to the gym one day and expect results. It's a cumulative effect."

SIMPLIFY YOUR LIFE

"Everybody's life is busy, but this business is the solution to it. It takes time, so simplifying your life is a must and that's hard for most people when they join this business. When you decide to build your business, you have to deliberately make space for it."

BE AN EXAMPLE

"We have spent a lot of time trying to do the right things and as a result, a lot of people have duplicated us. We often say that 'example is not the main thing, it's the only thing'."

FOCUS ON THE BASICS

Both Mitch and Deidre have equally developed the business and both have individually mastered every facet of it.

HELP OTHERS

"When you take the focus off yourself and you focus on others, that's when the business becomes addictive. We are asked several times a month why we are still doing this, why we show the plan, and why we continue to build the business. It's because you get addicted to the change that you see in others' lives."

The perfect bundle

Fuel for life

With a busy life that includes a daily cycle around his home city of the Gold Coast, running around with his wife Deidre to ensure that their three kids get to their extra curricular activities on time, and travelling around the world leading a successful global business, where does Mitch Sala find the energy?

With the Perfect Bundle: NUTRIWAY® DOUBLE X®, Omega-3 Complex and Concentrated Fruits and Vegetables.

“Put these three products together and you have the absolute basics for maintaining optimal health and wellbeing,” says the Founders Crown Ambassador. “It’s an insurance policy for your health ... It ensures that on a daily basis you are getting the right supplementation.”

“It would be almost impossible for someone new to trial them and not literally feel the difference in a matter of days!”

“It’s an insurance policy for your health.”

WORLD ENVIRONMENT DAY

The Home Essentials Team is asking for your support. World Environment Day is on 5 June 2007, and the United Nations theme this year is 'Climate Change'.

At AMWAY®, we are working towards more environmentally friendly products like SA8® Laundry Concentrate, which does not contain any phosphates that are harmful to the environment. Do your bit on World Environment Day by walking to work, refusing plastic bags, recycling, starting a compost heap, or turning appliances off standby. Take small steps to think global, but act local.

WINTER BOOST

Give your body an essential boost this winter with NUTRIWAY DOUBLE X®. It is a high potency supplement packed with 12 essential vitamins, eight minerals and seven plant concentrates that fortify your body naturally. A daily serving of DOUBLE X supplies you with high levels of antioxidants like vitamins E, C, beta carotene and selenium, to help protect your immune system against damage caused by free radicals.

E. FUNKHOUSER WINNERS

Australian IBO Angela Vassallo and New Zealander Sarah McNabb were both rewarded with trips to the United States after achieving the highest Personal PV from E. FUNKHOUSER™ New York sales between 1 November 2005 and 30 April 2006. The two IBOs, who travelled to the US separately with their partners, were spoilt by the AMWAY staff and taken on tours of AMWAY Headquarters in Michigan, the ARTISTRY® Beauty Institute and then given time to explore New York on their own.

Angela says, "We were spoilt. We loved every moment of it, AMWAY really went out of their way to look after us."

Sarah, who planned the trip to coincide with her two year wedding anniversary, says, "We were showered with gifts beyond our expectations; even upon my return I was surprised with a cosmetic case I'd spotted after desperately seeking one suited to what I do. We intend to have more fun with the E. FUNKHOUSER brand and are inspired all over again to do even bigger and better things."

Rocky Mountain High

Another wonderful Emerald Plus event in Colorado and the USA. It was an opportunity for the leaders in the business to spend time with executive staff from the company, talk through the issues that matter most to them, get a sense of what is happening in the future and plan for the exciting months to come.

Aspen

But it wasn't all meetings and business. The Diamonds spent three wonderful days in Aspen, the winter playground of the rich, staying at the breathtaking St. Regis resort and skiing to their hearts content on Snowmass Mountain. They also enjoyed themselves hot air ballooning and dog sledding. Leaders pursuing more relaxing activities shopped in boutique stores and indulged themselves in the spa.

Beaver Creek

The Diamonds left Aspen and headed to Beaver Creek to meet up with the Emeralds on Day 4. The elegant mountain resort kept everyone busy during their leisure time with countless restaurants, exclusive shopping, and great skiing and snowmobiling. Emerald Plus 2007 ended with dinner at the exquisite Saddle Ridge restaurant. The event was pure winter luxury.

STEPHEN AND BRONWYN GREATBATCH QUEENSLAND, AUST

OCCUPATION – BUSINESS DEVELOPMENT MANAGER/EARLY CHILDHOOD TEACHER

Treating the AMWAY® opportunity as a business is the only way to succeed, according to Stephen and Bronwyn Greatbatch. That's the viewpoint the Queensland couple decided to take when they were finally convinced that the AMWAY business was the best way to secure the extra cash flow they needed for their property investments.

"We invested in our business," says Stephen. "We bought NUTRIWAY® supplements, we bought the ATMOSPHERE™ Air Purifier, eSpring™ Water Purifier and ARTISTRY® skincare systems. We bought what was available from our own business. It just made sense to treat it seriously."

They joined in late 2002 and only a few years later, things have changed for the better. Bronwyn was able to retire from teaching to become a full-time mother, and as Stephen jokes, "This means she spends her time looking after our own children instead of other people's." Stephen and Bronwyn now make important life decisions based on what is best for them and their two girls, rather than considering "How much will it cost?".

Another highlight for the couple is the travel. Stephen says, "Prior to the business we worked two jobs each for 12 months to save up the money to go overseas for an eight week holiday. Our mindset at the time was that this would be our once in a lifetime trip. It would be our one trip overseas before the kids came and then maybe after they left home we might be able to afford to have another trip."

But with AMWAY, the travel rewards have been a huge incentive. "We have been to Hawaii twice, Las Vegas, China, Colorado for skiing and later this year we take our children to the USA again... It's great experiencing travel, not from the back of a car or in a tent, but in five or six-star accommodation and being looked after in the way that only AMWAY can look after their people."

Stephen and Bronwyn want to continue making a difference in people's lives and helping them on the road to achieve financial security. "The way we see it is that when you have a positive impact on someone else's financial situation, the economic result is like a pebble in a pond," says Stephen. "The ripple effect impacts positively on the whole of society."

It's the highlight of the AMWAY® calendar: Achievers 2008 in Mauritius gives you the opportunity to mix with key AMWAY staff and Diamond IBOs in gorgeous surrounds.

As for your accommodation, you will be immersed in the exquisite natural landscape of the South West coast of Mauritius at the Paradis Hotel and Golf Club and Le Dinarobin Hotel Golf and Spa. Set at the foot of Le Morne Mountain and surrounded by a seven kilometre beach, these neighbouring resorts offer access to a spectacular international 18-hole golf course, water sports and superb restaurants. These amazing five-star resorts are just another incentive for you to experience the magic of Mauritius.

VITAL ENERGY

THERE ARE MANY THINGS IN OUR DAY-TO-DAY LIVES THAT CAN LEAVE US FEELING DEPLETED OF ENERGY. ONE OF THE MOST COMMON QUESTIONS NATUROPATHS ARE ASKED IS "HOW CAN I GET MORE ENERGY?"

Whether you are working full-time, studying, building a business or raising children, there are never enough hours in the day. There are many health issues that can contribute to lethargy. These include lack of exercise and being overweight, adrenal fatigue, stress, and of course, nutritional deficiencies through diets high in processed food or lacking in nutrients. Vitamin and mineral deficiencies decrease red blood cell production and can lead to fatigue because these cells transport oxygen used for energy. Through balancing our diet and supplementing in areas where we may be lacking vital nutrients, we can make profound changes for the better in our energy levels and prevent these sorts of health issues.

Carrying extra weight is a common cause of tiredness. Increasing exercise and reducing food intake can help to bring weight down. Boosting your metabolism through diet and exercise is the key to losing weight and increasing your energy levels. The best way to do that is by lifting weights two to three times a week. Ensure you are also getting adequate protein – you need to feed the muscle before you can build it. The NUTRIWAY® POSITRIM® Protein Powders and Bars are healthy options for supplementing your protein intake. Create a delicious protein packed breakfast smoothie and snack on the delicious bars throughout the day to keep energy levels up by providing your body with adequate protein.

It is also important to ensure that you are getting enough B vitamins in your diet as B vitamins are responsible for helping to unlock energy from the foods that we eat, and ensuring our cells have an ample supply of ATP (cellular energy).

NUTRIWAY DOUBLE X® contains these very important nutrients. B vitamins are water soluble which means our cells will use what they need and excrete any excess. This is why it is important to take them in divided doses throughout the day and that is why we recommend DOUBLE X twice daily. Other great NUTRIWAY products that can also boost your vitamin B intake include NUTRIWAY B Complex and NUTRIWAY ACTIVE 8® Drink Mix.

Adrenal fatigue is becoming more and more common. The adrenal glands sit on the kidneys and are important for modulating our stress reaction as well as maintaining the balance of many body functions through their secretion of important hormones. As stress affects these glands, it's important to manage stress levels through yoga, meditation and/or exercise. Several vitamins and minerals are essential for the formation of adrenal hormones. These include B vitamins, vitamin C, and magnesium – all of which can be found in DOUBLE X. So take DOUBLE X twice daily and power up for vital energy.

The herb Siberian Ginseng is a known adaptogen, which means it is able to help the body adapt to stress. Siberian Ginseng has been used traditionally for many years as an energy tonic and it can help enhance stamina and endurance. You can find it in NUTRIWAY Siberian Ginseng and Ginkgo Biloba Blend. It is a great supplement to take 20 minutes prior to your workout for extra stamina or at any time during the day to help the body cope with stress. It is not suitable however if you have high blood pressure or are taking blood thinning medications.

By making simple changes to your diet and lifestyle, you can have profound effects on your energy levels. A poor diet of white bread, coffee, soft drink, pasta and convenience foods, deprives your body of much needed nutrients to perform vital every day functions. Eating a poor diet everyday can set us up for long term nutritional deficiencies. By changing your diet to include fresh fruit, vegetables, lean animal protein, nuts, wholegrains, legumes, herbs and spices, you can put the spring back into your step. Plus supplementing with a multivitamin/multimineral phytonutrient supplement like DOUBLE X can also provide you with nutritional insurance – filling the gaps between what you should be eating and what you actually do eat. So start making some healthy choices with regards to your diet and lifestyle, combined with the right NUTRIWAY supplement regime, and you can begin your journey to long lasting vital energy.

FUN FUNDRAISING

FREEDOM WHEELS™ FUNDRAISING EXPLODES AROUND AUSTRALIA, WITH A GROUP OF IBOS IN WA LED BY BRIAN AND GILLIAN POTTS, AND ANOTHER GROUP IN QUEENSLAND LED BY AMANDA BRIGGS AND LUKE ROWLINSON, ALREADY RAISING UNPRECEDENTED AMOUNTS IN A SHORT AMOUNT OF TIME.

Western Australian Diamond couple Brian and Gillian Potts have taken the FREEDOM WHEELS cause to heart. When Gillian first learnt of the FREEDOM WHEELS campaign, she was immediately touched by the affect the program had on the lives of the children and families involved. "I get a lump in my throat thinking about it," she says. Indeed, watching the video footage of the children – some of whom had previously never been able to move independently – ride their modified bikes freely, is quite

moving. Knowing that she could help other children experience this limitless joy drove Gillian to come up with ideas to raise money quickly.

Gillian says, "I came up with this idea of doing a chocolate drive because it was going to get money in fast. When I first saw the FREEDOM WHEELS DVD I thought that [the chocolate drive] could be the start and when I shared the idea with our group I was just overwhelmed with their response and how they wanted to get involved."

"We never, ever thought we would have come anywhere close to the amount of chocolates that were sold. The greatest reward in life is the reward of giving and that's what we do in and out of the business."

So far, the group has raised over \$8,300 from personal donations and the chocolate drive for FREEDOM WHEELS in Western Australia. That already means 13 more modified bikes for children with disabilities. And, it's only the beginning. Gillian is also talking about organising fundraising events in the future, including a sponsored walk around Perth.

In Queensland, Platinum IBO Amanda Briggs also wanted to raise community awareness for the cause, so she held an E. FUNKHOUSER™ makeup day. With her husband Luke Rowlinson, she paid for the E. FUNKHOUSER pro team to do one-on-one consultations for the 50 people who attended. Amanda also had TAD Queensland CEO Maureen O'Brien come in as a guest speaker at the event. All retail profits were donated to FREEDOM WHEELS which resulted in a donation of \$790.

You can help make a huge difference in the lives of children with disabilities by supporting FREEDOM WHEELS. Spread the word to your family and friends. Come up with creative ways to raise money: hold a sausage sizzle, trivia night or recycle your XS™ Energy Drink cans. It's up to you. A small idea and a motivated team can go a long way.

Besides fundraising, you can also make a donation or purchase items that support FREEDOM WHEELS. For every purchase of the following products, AMWAY® donates \$1 to the FREEDOM WHEELS campaign on your behalf:

- NUTRIWAY® DOUBLE X® 62 Day VS 6134
- NUTRIWAY Chewable Multivitamin VS 122
- NUTRIWAY Chewable Vitamin C VS 6209.

Purchase any of the following FREEDOM WHEELS branded promotional items and all profits go to the campaign:

- Navy Cotton Cap VS 209544
- Charity Rubber Band VS 209545
- Charity Pen VS 209546
- Water Bottle VS 209547
- Environmental Bag VS 209548
- One by One Pin VS 208512.

AMWAY of Australia is proud to be associated with TAD on this life-changing project. Under the global 'One by One' campaign, FREEDOM WHEELS will impact thousands of lives. Together we can make a difference.

FREEDOM WHEELS UPDATE

Here is an update on what is happening with the FREEDOM WHEELS program:

PROTOTYPE BIKES

TADNSW have been busy re-engineering the customised bike, dramatically improving the degree of customisation, ease of fabrication and assembly and appearance. A prototype of the bike was built in April and the full launch of the new designs is set to occur this month. Previously, it took highly skilled volunteers between 30 and 50 hours to put a customised bike together. The new designs will be reducing fabrication and assembly time to a fraction of the what it was before.

ON THE ROAD

TADNSW are almost ready to take FREEDOM WHEELS clinics on the road. A Toyota Hiace Super Long Wheelbase van was ordered in April and will be fitted to carry enough bikes and parts to the assessment clinics.

MEDIA INTEREST

FREEDOM WHEELS has been garnering interest in the broader community with TADNSW and AMWAY Regional Vice President Peter Williams being interviewed by the media. Visit FREEDOM WHEELS on a2k for live updates.

Fundraising registration is essential in order to keep within the Fundraising Guidelines. Only Authorised people can use FREEDOM WHEELS/TAD/AMWAY branding in their fundraising activities.

If you do have an idea for raising money and awareness for FREEDOM WHEELS, download the 'Fundraising Guidelines' and 'Registration Form' on www.a2k.com.au. You can also contact Nadia Zeaiter on 02 9843 2438, Deb Campbell on 02 9843 2144, or email freedomwheels@amway.com.

High achievers rewarded

THE FIRST 24-MONTH EMMA PAGE® HIGH ACHIEVERS TRIP FOR 2007 WAS A MEMORABLE EXPERIENCE FOR SEVEN LUCKY IBOS.

It was an early morning in March when seven EMMA PAGE High Achievers boarded planes from all over Australia, destined for two days of pampering in Melbourne with the EMMA PAGE team.

Sydney's Sandrine Ilitch, Elaine Kuo, Carmen Watson and Vanessa Yee; Adelaide's Chris Longden and Caroline Phegan; and Brisbane's Julie Hibbert were all picked up from Melbourne airport in stylish limousines and transported through the city to the luxurious Como Hotel. A quick drop-off of bags and it was straight onto the EMMA PAGE offices for an early lunch and an afternoon of business (including a special sneak peek at the Winter 2007 Collection!).

Informed and inspired, the ladies were then taken back to the hotel for an afternoon of pampering with facials or pedicures, then a relaxing evening in their five-star suites. Dinner was a trip around the streets of Melbourne in the Colonial Tramcar Restaurant, where there was an opportunity to discuss the business one-on-one with EMMA PAGE founders Raymond and Julia Vidor and the rest of the EMMA PAGE Team.

Day two started with a fantastic breakfast, then it was off for some serious retail therapy on Bourke Street, ending with a delicious farewell lunch at the Richmond Hill Café and Larder. It was a rewarding experience for all with everyone coming away renewed and invigorated for the year ahead, and with another goal in mind: **Versace 2007!**

EMMA PAGE HIGH ACHIEVERS PROGRAM

The EMMA PAGE High Achievers Program is committed to rewarding the success of IBOs through this and other rewards. For achieving a minimum of 300 EMMA PAGE PV consecutively each month you will receive the following:

FIGHTING WINTER WOES

LOOK AFTER YOUR SKIN THIS WINTER WITH PRODUCTS FROM THE ARTISTRY® TIME DEFIANCE® RANGE.

As our skin is granted a reprieve from the harsh summer sun, winter comes around to inflict more harm. This time of year brings out drier, dull skin, chapped lips, cold sores, and a bevy of other winter woes. We have no control over the changing seasons, but what we can do is prepare our skin so that only minimal damage is caused by the colder months.

This is especially important for those who are concerned about the ever-prevalent signs of ageing appearing on their faces. Skin dehydration caused by the cold weather only accelerates the natural ageing process by stripping skin of essential moisture and depleting the lipid barrier,

resulting in skin looking tired and beaten. A key to fighting this is by supplying your skin with the moisture that it requires. On a very basic level you can do this by using a cleanser, toner and moisturiser daily. If you would like to give your skin an extra boost, it's time you looked beyond the basics.

SEASONAL FACELIFT

One extremely effective way of injecting moisture and a shot of youth into your skin, without the painful needles or the frightening cosmetic surgery bill, is with TIME DEFIANCE Intensive Repair Serum. It is a 14 night intensive treatment applied to the face and neck that protects the skin from premature ageing and visibly diminishes the appearance of fine lines and wrinkles.

The Intensive Repair Serum has been designed for use four times a year. It is recommended that you coincide each application with seasonal changes to minimise the stress the weather causes to the skin. It features Deep Night Action Complex, which contains Ultrasomes that are naturally found in marine algae. Test results show that the Intensive Repair Serum improves skin clarity by 261 per cent, the appearance of fine lines by 99 per cent, and skin smoothness by 83 per cent.

CLEAR YOUR HEAD

If the good (and the bad) times are etched all over your forehead in what is sometimes referred to as “expression lines”, then consider using TIME DEFIANCE Derma Erase. It features a unique pen-style applicator that allows you to target expression lines, leaving your skin looking noticeably smoother and younger looking. Derma Erase contains Gotu Kola and Bamboo Extracts and has been proven to reduce the appearance of expression lines/dermal creases by 32 per cent on the forehead and by 25 per cent between the nose and mouth. Apply Derma Erase to the expression lines after you have cleansed and toned, but before moisturising.

SAVE DAMAGED SKIN

Mature and sun-damaged skin need extra care during winter. TIME DEFIANCE Vitamin C and Wild Yam Treatment has been developed by ARTISTRY’s researchers to effectively fight the appearance of wrinkles. Wild Yam is known to benefit mature skin by providing moisture, and clinical results show that the Vitamin C and Wild Yam Treatment reduces the appearances of wrinkles around the eyes by 58 per cent.

On your first use of the Vitamin C and Wild Yam Treatment, you need to mix the Essence with Wild Yam tube into the vitamin C bottle as per instructions on the packaging. Then, after you have cleansed and toned your skin, smooth the treatment over fine lines and wrinkles, especially around the eyes.

By taking care of your skin and using the right products for your specific needs, you will come out of winter looking revived, fresh and ready to bask in the warmer months.

MORE WINTER SKINCARE TIPS

As well as looking after your skin with products from the TIME DEFIANCE range, there are a few other things you can do to make sure that your skin stays in optimum condition this winter.

DRINK LOTS OF WATER

Nourish your skin cells as they become dry during winter by drinking the recommended amount of eight to ten glasses of water every day.

TURN THE HEAT DOWN

Resist the temptation to turn your indoor heating up high during winter as the dry air is bad for your skin. It is recommended that you keep the heat to the lowest temperature that you are most comfortable with.

AVOID HOT BATHS

Over-exposing your skin to hot baths and showers can dry your skin even more during winter. Have lukewarm showers instead and try to limit the time you spend in the shower too.

SLAP ON THE SUNSCREEN

Even though summer has ended, you should still use sunscreen daily to protect your skin from sun damage.

TAKE SUPPLEMENTS

When you look after the inside of your body, it reflects on the outside. If you have any diet deficiencies, feel stressed, or are constantly tired, you should be taking supplements. NUTRIWAY Primrose Plus and NUTRIWAY Omega-3 Complex are just two supplements that can really help your skin.

ARTISTRY®

Prepare delicious and healthy meals with iCook exceptional quality cookware. Made of premium-grade surgical stainless steel that is at least 18 per cent chromium and eight to 10 per cent nickel to resist corrosion – this is one cookware range that will last for years.

iCook is unique because of its ability to distribute and retain heat evenly through OPTITEMP™. It's easier to cook healthily too since iCook contains VITALOK™ technology that helps food retain one-third more nutrients and flavours, and DURAMIC™ coating which eliminates the need to cook with oil or butter.
